

Flexible tools for your efficiency audits.

**We Guarantee..**

**About Us**

**..THE MOST COMPREHENSIVE ENERGY AUDITING TOOLS IN THE MARKET-PLACE**

**..TOOLS TO FIND WATER AND WASTE REDUCTION STRATEGIES**

**..FINDING ALL AVAILABLE REBATES AND INCENTIVES**

**..EASY TO UNDERSTAND, YET DETAILED, ANALYSES**

**..OUR SYSTEM IS SIMPLY THE BEST AVAILABLE SOFTWARE TOOL FOR THE AUDITOR**

**..ANALYSES THAT ARE DATA SUPPORTED**

**..A DETAILED ANALYSIS OF YOUR CLIENT'S PROJECTED SAVINGS**

**FREE eQuickCheck ANALYSIS.** Let us prepare a free energy utilization analysis for your client's home or business. Sign up as a partner with ECO Zero, and we will send you the survey forms for a basic energy analysis. The eQuickCheck report will provide your client with his home or business Energy Utilization Index (EUI) along with an estimate of potential savings in his building. Use these numbers in your auditing business to determine who is a candidate for more detailed efficiency analyses.

ECO Zero LLC is a software development firm dedicated to creating easy-to-use yet comprehensive auditing programs, bringing an unbiased solution for auditors to use in their operations. Our software is focused on helping the auditor collect all the relevant data needed to conduct an in-depth analysis.

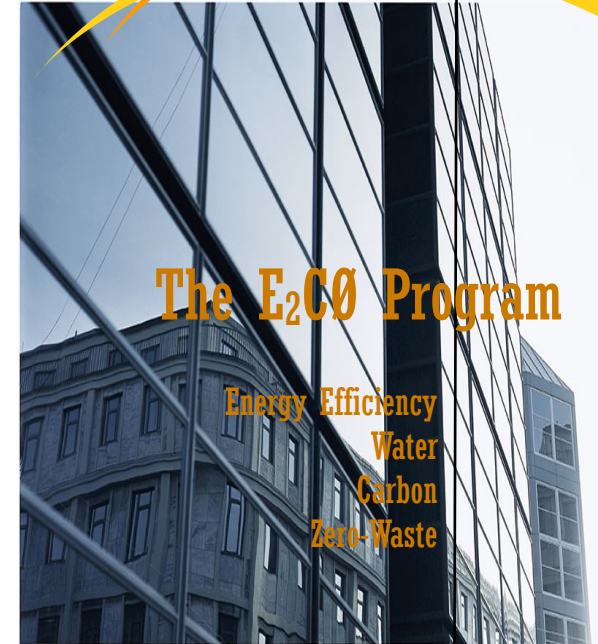

Finally, there is a software solution to help you run your efficiency business. ECO Zero has dedicated ourselves to our clients, the tools we provide, and the value we add to your business. Our promise to you is simple. We will help you create more value in your auditing organization.

# Energy efficiency software that work for your business.

## Efficiency Savings

### ENERGY SUPPLY

Cut supply costs for electricity, natural gas, and other sources of energy used in your facility.

### WATER CONSERVATION

Create a water balance, measure your water footprint, and identify conservation measures.

### BUILDING ENVELOPE

Inspect your building envelope, including insulation, windows and doors, and roofing to identify efficiency retrofits.

### ENERGY EFFICIENCY

Create an energy balance covering lighting levels, kitchen and laundry facilities, and HVAC systems.

### ZERO-WASTE

Evaluate the possibilities of reducing waste and increasing recycling efforts.

### RENEWABLE ENERGY

Gauge the feasibility of various renewable energy sources (solar, wind, geothermal and others) to reduce energy costs.

## Technology Partners

### POWER FACTOR OPTIMIZATION

Our technology monitors and conditions your power to create savings for you.

### POWER MANAGEMENT

Energy management tools that provide solutions for multi-tenant energy monitoring and data analysis to create an effective energy management plan.

### COOLING TOWER WATER TREATMENT

Reduce energy costs from heating and cooling by 5%-20%, water usage by 50%-75%, and reduce or eliminate chemical costs associated with cooling tower water treatment.

## Partner Support

### MARKETING & SALES

We provide our partners with marketing and sales literature from the initial inquiry through client acquisition.

### CLIENT MANAGEMENT & CONTRACTS

If you join our partner program, we can provide you with the contracts necessary to sign new clients and the forms to track your auditing projects.

### SOFTWARE TRAINING

We want to create lasting partnerships with dedicated business professionals. To that end, we will provide you with the training material so you can deliver the best efficiency solutions available.

If you feel that you can meet the challenge of being part of the global efficiency movement, start by emailing us at [info@myEcoZero.com](mailto:info@myEcoZero.com). We will be happy to answer all your questions and provide you with our Sales Consultant Introductory Package. Success in life is often about being in the right place, in the right time, with the knowledge of how to exploit the opportunity. At Eco Zero a unique set of conditions have been merged to form an innovative business opportunity with unlimited profit potential. We look forward to working together.
